Spa brush

Electric vacuum cleaner for spas and small pools

Keep your spa or small pool clean with this lightweight, handy and easy-to-use vacuum cleaner.

Specially designed for pools up to 3 metres (10') in diameter, it provides efficient, effortless cleaning.

Connects to
telescopic handle.

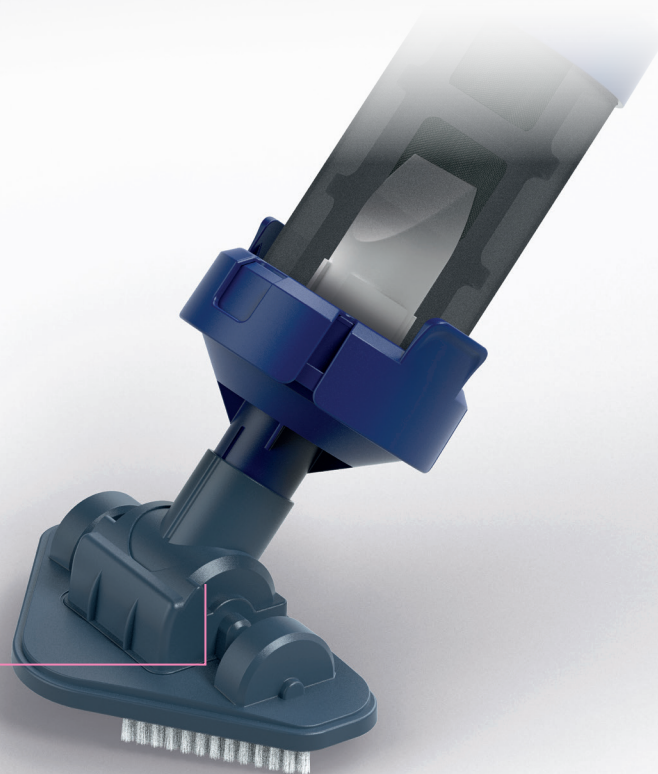

Stainless
steel filter

All-in-one practical, easy-to-use kit!

The device recharges quickly via a USB port and has an LED charge indicator that clearly shows the battery status. It comes with two 50 cm poles for easy access to all areas, as well as a net and hand brush for complete maintenance.

Its stainless steel filter ensures durability and efficient cleaning. To adapt to all types of surface, two interchangeable suction heads are included: a pivoting head for hard-to-reach corners and a special spa brush for spot cleaning.

This all-in-one kit is the ideal solution for keeping your water clear and your pool spotless, with ease.

steel filter

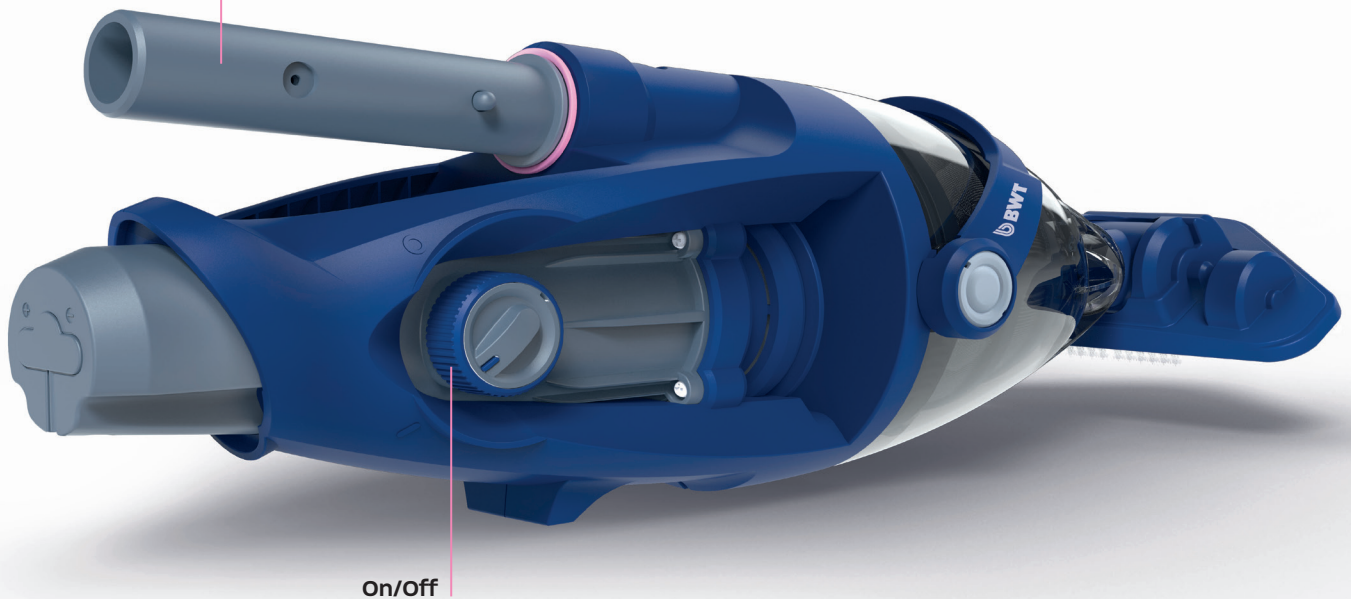

User Friendly and sustainable

This pool cleaner has a cycle time of 40 minutes, so you can clean your pool effectively in less time. Lightweight design and easy to use.

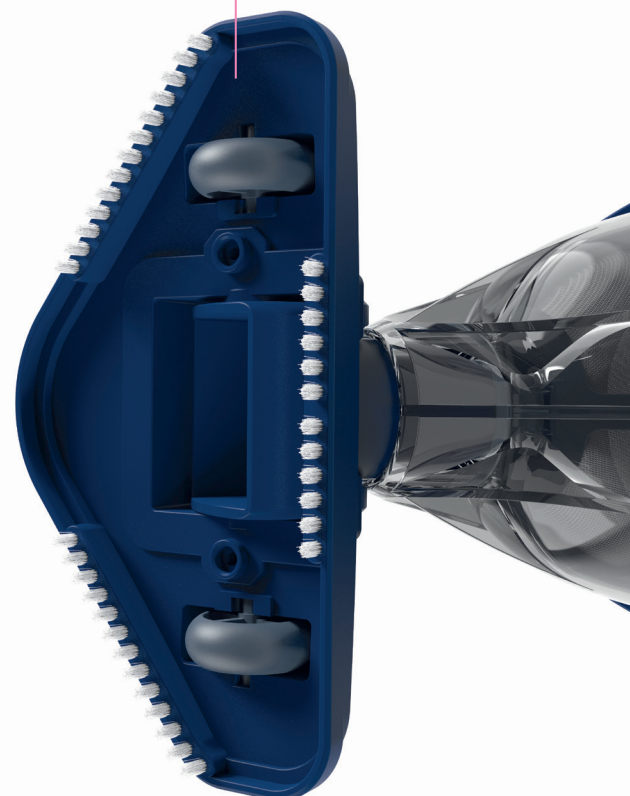

Its filter capacity of 0.8L (0.21 gal) ensures good retention of debris, for a pool that's always clean.

What's more, this appliance comes with a 2-year warranty, giving you peace of mind about its reliability and durability.

Connects
to telescopic pole.

Pivoting
suction heads

Large volume, overall cleanliness!

This vacuum cleaner connects easily to a standard telescopic pole (not included), offering flexible use adapted to your needs.

Ideal for small to medium-sized pools, its lightweight design combined with a pivoting suction head ensures effortless handling and optimal maneuverability.

In addition, the latch canister opening system makes handling effortless, guaranteeing optimal ease of use.

This vacuum cleaner is the quick and simple solution for keeping your pool clean.

Rechargeable vacuum cleaner

Large volume,
overall cleanliness!

Rechargeable double-filter pool cleaner

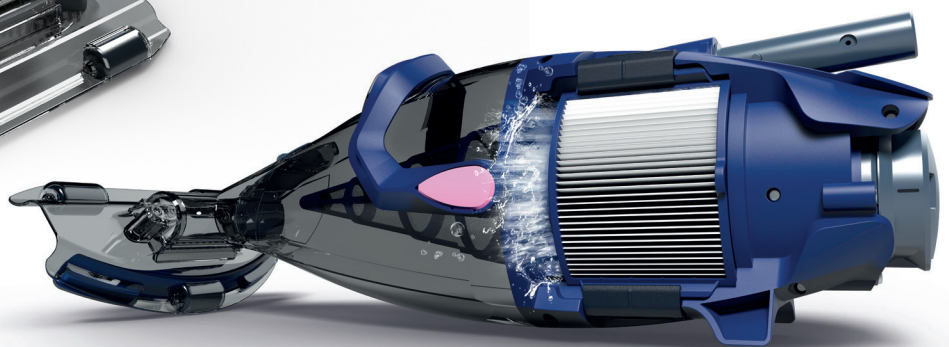

One vacuum cleaner, two cleaning levels, standard or fine.

Fast, powerful cleaning!

Unique design for better suction

Debris is sucked into the side channels where suction is concentrated to ensure maximum efficiency.

Transparency ensures visibility for monitoring debris collection throughout the cleaning process.

Visible cleaning power!

Pleated cartridge filter easy to adjust to two positions

Open for general cleaning

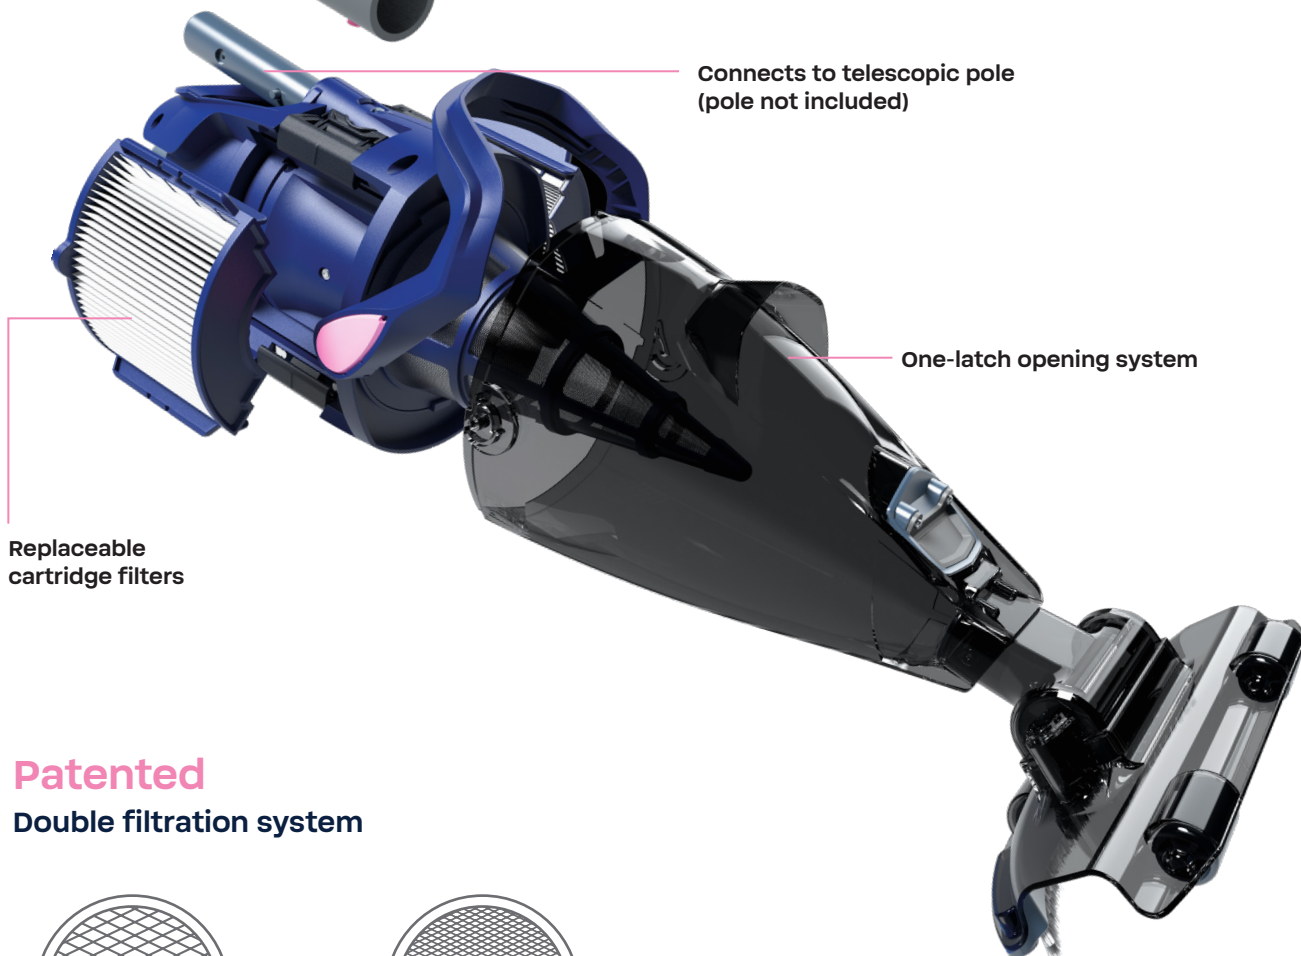

Closed for fine cleaning

The fine-mesh pleated filter has a large filtration surface for good filtration performance.

It sucks up fine sand and sediment from the bottom of the pool.

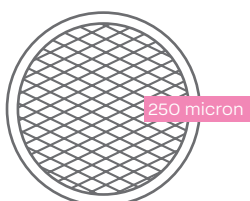

Connects to telescopic pole (pole not included)

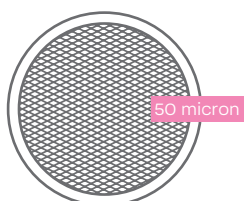

Replaceable cartridge filters

One-latch opening system

Patented Double filtration system

Standard stainless steel filter

Pleated fine mesh filters

Rechargeable vacuum cleaner
